0660 6094752

The invoice of a midwife can be submitted to the public health insurance, after what you get a refund over 80% of the standard rate of the public health insurance. You can find the actual standard rate of the public health insurance here: <http://www.hebammen.at/eltern/kosten/>.

I would suggest to ask for the possible refund, if you hold a private health insurance. As a midwife, I cannot offer a direct charging of the health insurance.

Midwifery care is basic care and should be equally accessible to all people!

I want to make my work as barrier-free as possible and am in a constant learning process. I try to educate myself about discrimination and barriers, to think about them and to reflect my work.

Feel free to contact me if there is a financial or other barrier to midwife support - I would like to find a way together with you!
