Midwife Isa Ruhland  
[www.hemaia.at](http://www.hemaia.at)  
0660 6094752

As a midwife registered with the health insurance fund, I bill all appointments covered by health insurance directly to the statutory insurance providers. You can find the health insurance benefits here: <http://www.hebammen.at/eltern/kosten/>. The rates for all other midwifery services are listed below.

I would suggest to ask for the possible refund, if you hold a private health insurance. As a midwife, I cannot offer a direct charging of the health insurance.

Midwifery care is basic care and should be equally accessible to all people!

I want to make my work as barrier-free as possible and am in a constant learning process. I try to educate myself about discrimination and barriers, to think about them and to reflect my work.

Feel free to contact me if there is a financial or other barrier to midwife support - I would like to find a way together with you!
